

## **Information to be Provided under the EU Data Act (Regulation (EU) 2023/2854)**

### **1. Information on Available Data Formats and Data Structures of Exportable Data**

The exportable data stored on our servers are available in the following data formats and data structures:

- The exportable data is available in data formats such as csv, jpg, png, pdf, txt, doc/docx, xls/xlsx, xml, and json.
- The exportable is available in data structures such as arrays, lists, stacks, queues, trees, graphs and hash tables.

The EU's register on relevant standards and open interoperability specifications for data processing services and data in scope of the EU Data Act is not yet published.

### **2. Information on the Jurisdiction to which Our ICT Infrastructure is Subject and our Technical and Organizational Measures to Prevent International Government Access to or International Government Transfer of Non-Personal Data Stored in the EU**

Our IT infrastructure is generally subject to the jurisdiction of The United States of America. We assume that the data we process is generally personal data within the meaning of the GDPR (Regulation (EU) 2016/679), and we protect this data appropriately and in accordance with the provisions of the GDPR. We have therefore implemented technical and organizational measures in accordance with the GDPR to protect the data we process.
